

**December 8, 2016**

**Agenda Item # 9**

**REALLOCATION OF CITY OF SACRAMENTO MEASURE A FUNDS**

Action Requested: Approve Reallocation

Key Staff: Norman Hom, Principal Administrator

---

**Recommendation**

Approve the reallocation of remaining Measure A funds from the City of Sacramento's Cosumnes River Blvd. Extension Project to the City's Interstate 5/Richards Blvd Interchange Upgrade Project.

**Discussion**

The City of Sacramento's Cosumnes River Blvd. Extension Project has been completed. Because the City was able to get additional developer contributions for that project, they were able to save Measure A monies to apply to their Interstate 5/Richards Blvd Interchange Upgrade Project. The City requests the entire remaining balance of \$1,615,862 be reallocated.

Both projects are programmed in the Measure A Transportation Expenditure Plan so there are no restrictions on making this reallocation.
