AGENDA ITEM # 13

NEIGHBORHOOD SHUTTLE PROGRAM

Action Requested: Provide direction

Key Staff: Norman Hom, Executive Director (Interim)

Recommendation

Provide staff direction on the next steps for the creation and implementation of a Neighborhood Shuttle Program.

Background Information

Measure A provides \$30 million for a neighborhood shuttle program as follows:

“At least \$30 million in sales tax revenues will fund the development of additional Neighborhood Shuttles throughout Sacramento County. The Authority shall develop a program that will allow local jurisdictions to compete for these funds.”

Beginning with the implementation of the current Measure A in April 2009, \$1 million/year (or, \$83,333/month) has been set aside for the neighborhood shuttle. The total current accumulated amount so far is \$8.104 million.

Discussion

Staff has developed a basic framework for the implementation of a neighborhood shuttle program and is ready to begin working with a steering committee to further refine concepts, develop guidelines, and take public input. A subcommittee of the STA Board could be created for this purpose.
